

WILLETT & GRAY ON SUGAR MARKET

Concluding an opinion regarding the weakness in sugar a few weeks ago, Willett & Gray, in their last report, have the following to say:

"While a partial cause of the decline appears to have been the probability of the release of sugars from Russia sooner or later, the sudden change and partial recovery was due to the purchase in Cuba of some 200,000 bags of centrifugals at prices of 3.35c per lb., and 2.50c per lb. free on board Cuba in April, the buying being supposed to be ultimately for shipments to either France or Great Britain and in addition to former purchases for these accounts. And growing out of this buying reports were circulated that the embargo imports into Great Britain were about to be removed.

"Private cables, however, from London pronounced such reports as unfounded. Other causes therefore must be assumed as the most likely reason, founded to some extent at least on positive information.

and further all pensions at the time of retirement, except in cases where the pensions at that rate would exceed four hundred dollars per annum.

If the amount of money contained in this fund shall become at any time inadequate to fully carry out the provisions hereinbefore mentioned, the Trustees of said fund shall then pay pro rata to the persons entitled to participate in said fund will warrant, and such payment shall be in full of all pensions then due under the provisions of this Act.

Section 8. No person shall become a pensioner under this Act who has not contributed to the fund hereby created an amount equal to twenty per cent, of his or her salary per annum at the time of retirement; but any such person, otherwise qualified who has been or who shall have been in the service of the Department of Public Instruction prior to July 1, 1916, may become a pensioner under this Act by making a cash payment to the said fund at the time of retirement of such an amount as his or her previous contributions may have fallen short of the required twenty per cent, of his or her salary per annum at the time of retirement, provided, however, that such person become within one year from July 1, 1915, an applicant for pension as specified in Section 4. Any duly qualified person on entering the service subsequent to July 1, 1916, may become an applicant for pension but such person must become an applicant within one year of entrance or time of service as effecting this Act will not be counted until such person becomes actual applicant.

Section 9. If at any time any inspector, principal, teacher or special teacher shall be discharged from the service before such person would under this Act be entitled to a pension, then such person shall be paid back all the money he or she may have contributed to this fund.

Section 10. No pension shall be paid from the fund created by this Act before July 1st, 1916; but any person legally entitled to become a pensioner under this Act may retire or be retired from the service before that time and shall not be deemed to have forfeited his or her right to become a pensioner under the provisions of this Act.

Section 11. This Act shall take effect from and after the 1st day of July, 1915.

Russian sugar to Great Britain and France, that is more far reaching and must be kept in mind.

"By the latest Russian statistics available to us it appears that the Russian estimates briefly stated are: stock, September 1, 1914, 275,000 tons; production, 1914-15, 1,800,000 tons minimum, 2,039,362 tons maximum, giving total supplies of 2,075,000 to 2,314,362 tons against in 1913-14, 2,025,000 tons.

"There are available for export elsewhere (Great Britain-France), 230,000 tons minimum to 419,362 tons maximum, against actual 1913-14 of 11,000 tons."

IS THEATER TRUST COMING THIS WAY?

Is Lihue to have a branch of the theater trust? Joe Cohen, head of the enterprise, says so;—but it is just possible that he has reckoned without several things. The following article in the Advertiser refers to the matter:

A deal concluded yesterday, whereby the Consolidated Amusement Company will absorb the Hawaii Theater tomorrow and add that playhouse to its string of show places, following right on the heels of the purchase by the Consolidated company of the theatrical interests of Sam Blair, the Consolidated company has secured now a practical monopoly on the show business in the Islands.

Under the new order of theatrical things, the Consolidated Amusement Company will operate the Bijou, Lyceum, Empire and Hawaii theaters. The Paramount pictures, purchased from Blair, will be shown at the Popular theater for an indefinite period. Henry Bredhoff will continue as manager. C. A. Pedrie will be house manager of the Liberty and Mae McKay Scharlin will remain as manager of the Hawaii. The Bijou and Empire will be managed from the head office of the Consolidated company.

Aside from the theaters on Oahu, the Consolidated company now

Nitrater Here

The schooner Forest Home, Captain W. H. Dowling, arrived at Port Allen last Tuesday from Iquique with a cargo of nitrates for Hawaiian Sugar Company and McBryde Sugar Company. Her destination after leaving here is not yet known. Captain Dowling, who is an Irishman, made a dash for war news soon after landing, he having been at sea several weeks and not having heard of any of the more recent developments.

controls the Valley Isle Theater at Wailuku, the Lyceum Theater at Kahului, the Pioneer Theater at Lahaina and the Empire and Mo'eau Theaters at Hilo, and will furnish attractions for the Fourth Cavalry, Cavalry and Artillery, First Infantry, Twenty-fifth Infantry, Fort Kamehameha and Fort Shafter playhouses. Plans are about completed also for the erection of a new theater at Lihue on Kauai.

This theatrical trust will be, and Joe Cohen stands for this statement, "one of those beneficial trusts," which is going to cut prices and give more for the money. Cohen explains this on the reasoning that the competition of the past cost so much money for things outside of the theaters that it ran up the cost of production so that there was not much left to spend inside the theaters, and that as a consequence patrons of the shows had to come through with extra to keep things breaking even. Now, under one consolidation the public will get the benefit of the savings.

Oiliness

Without "oiliness" any lubricant would be worthless. You can feel the oiliness of Zerolene by pouring a little on a piece of glass and rubbing it around with your finger. Oiliness is in reality the molecules of the oil rolling over each other—miniature ball bearings as it were. Thus when you use a good oil like Zerolene the wearing surfaces of your engine roll over these "ball bearings" instead of rubbing together. Dealers everywhere.
